

Lawrence Community Theater's Vintage Players reach out to youth in the community.

Vintage Players provide educational programs at elementary schools to help young students develop an active learning style through participation in theatric roles. This helps young minds develop skills for learning that expand their ability to concentrate.

Optimists were entertained by the Vintage Players April 29th 2008.

Vintage players acted out many humorous skits for our group.

Examples of skit topics:

- Talking your way out of a traffic ticket;
- Providing feedback for a spouse who practices back seat driving

Vintage Players help make Lawrence Kansas a special place to live.

Everyone enjoyed the Vintage Player's performance; it was special to learn about their unique methods for working with and helping youth in our community.
